A soil gas survey workplan, prepared on your behalf by Environmental Support Technologies for Triad Geotechnical Consultants, Inc. was received on September 20, 1992. Review indicates that it acceptably covers those areas of interest originally discussed by staff of this Regional Board. There are no objections to the implementation of the workplan as proposed. A final report is due to this Regional Board by November 30, 1992.

If you have any questions, please contact me at (213) 266-7537.
